

FIRST AID KIT BY CHILDREN – FOR CHILDREN

With options for kindergarten – school – big school

NEW DESIGN, SAME TRIED-AND-TESTED CONTENTS!

The "little BIG helper"

NEW

The new "little BIG helper" kit series combines our tried-and-tested bandages in child-friendly sizes with eye-catching first aid kits. All the drawings on our new "little BIG helper" series were created by our colleagues' children, by children from schools, hospices and hospitals. That means the product is well deserving of the name – by children, for children!

The idea behind this kit series is to help even young children forge a connection with first aid and therefore make caring for everyone a more stress-free experience. The fun design helps reduce any anxiety children may have about wound care, making them smile and therefore distract them.

SÖHNGEN® bandages for children that fit!

Ill-fitting bandages are like shoes that don't fit properly. They kind of fulfil their purpose, but are uncomfortable and mean you can't move like you normally do.

And for the same reason that children wouldn't wear shoes that are too big for them, for over two decades we have made bandages that are truly made for children and adapted to their actual body size. Bandages that are comfortable to wear and let the wound heal undisturbed.
