900H POWER

The 900H Power is a 24V Lithium-Ion battery operated, motorised evacuation chair. The Powered Belt Track System reduces manual handling, enabling upward and downward evacuation. Quick and easy to operate, it facilitates a smooth and safe method of evacuation for the mobility impaired.

One full charge provides enough power to last for 150 flights of stairs, giving you complete peace of mind that you can evacuate the mobility impaired, upwards or downwards in an emergency.

-  Quick and easy to use
-  One to two person operation
-  No heavy lifting required
-  55 point quality check throughout manufacture
